

Our Town

By Peggy Blanchard

Golly it was hot!
Campbell avenue quietly melted
back into tar.

Gravity, and the heat, aided a
road crew to spread some nice,
warm black topping on Central
avenue.

Campbell's youngsters, happily
attired in what the law — and
fashion—require, were the envy of
drooping adults, as they — the
kids—made with the hose and the
water tubs wherever shade di-
luted the very very California
sunshine.

Official reading on the local
thermometer said 96. Not far
away, a second heat metre pointed
uncompromisingly to 103, compar-
atively cool when you consider
that the high for Wednesday
afternoon was 117.

That was good for the apri-
cots, though, which were reported
too green to pick Monday and
Tuesday. And because the pickers
couldn't pick, the canneries were
still canning in low gear. Rumor
says that employment in both in-
dustries will be sharply stepped
up today.

Meanwhile, the water works val-
iantly pumped more than a million
gallons of water Tuesday — to
keep up with Campbell's need for
moisture. New equipment and
water from the new Hamilton
avenue well won't be hooked up
for some days yet, so the water
company hopes local folks will
be conservative in their use.

★
Toward evening, as a great red
sunset painted the Los Gatos foot-
hills and the mountains behind
them, you could see the orchard
workers strolling along the roads
for a breath of cool air, the women
in pale dresses and bright jackets,
the men in jeans or coveralls.

That was our town Wednesday.

★
Mr. and Mrs. Jack Murdock,
formerly of Campbell, attended
Mr. and Mrs. Mac Ross at the lat-
ter's wedding July 3.

★
Thanks to calls from Mrs. Sim-
mons and Mrs. Frye, the braided
rug situation is well in hand
again.

★
Indignant Campbellites, just
now catching up on their summer
reading, have discovered an ar-
ticle—published in June by a na-
tional magazine—about a dehy-
drating plant in Idaho which the
article called "one of two plants
in the world where potatoes have
been successfully dehydrated"—
the other being in Burbank (near
Los Angeles) according to the
writer.

You may remember the car-
loads and carloads of potatoes
"successfully dehydrated" in
Campbell during the war. If you
do, you are probably ready to join
the yowl of protest; but, please,
tell that editor, not me—I posi-
tively had nothing to do with this
slight on Campbell's honor!

Steindorf Named By State C of C

California State Chamber of
Commerce Wednesday appointed
Frank L. Steindorf of Campbell to
the Central Coast Counties Cen-
tral Committee on C of C ac-
tivities.

His name was one of a list from
Santa Clara County named by
Frank M. Shay of San Jose, vice
president of the State Chamber.

Have A Hobby?

If you knit, tat, raise homing
pigeons, collect stamps, toby
mugs, or autographs, cover pin-
cushions or arrange jive music as
an avocation you're invited to en-
ter an exhibit in a hobby show
July 24 in Campbell high school
gymnasium.

Woodcarvers, designers of cer-
amics and other handcraft ama-
teurs are eligible for the show—
the second annual one staged here.

Even if you don't have a hobby,
you'll enjoy seeing what others
are doing with their leisure. And,
(Continued on page 8)

TEAR JERKERS

Six king-size red onions weigh-
ing some two pounds each are be-
ing groomed for the Santa Clara
valley exhibit in California's State
Fair. Grown by Ira H. Grim, the
onions average 5 to 6 inches
through.

Thursday, July 15, 1948.

HEAT HURRIES LATE APRICOT SEASON

Unified California Delegation Takes Lead at Convention

California's 54 delegates ral-
lied into a unified group during
the closing hours of the Demo-
cratic convention in Philadelphia
Wednesday to take a leading
part in the nomination of Pres-
ident Harry S. Truman and Al-
ben W. Barkley to carry their
party's banner in November.

As the national convention
opened, the Northern California
delegates took sharp issue with
democrats from the southern
part of the state over the nomi-
nation of Mr. Truman.

Northern delegates included
Patrick H. Peabody, publisher
of The Campbell Press and radio
station owner in the Santa Clara
Valley.

State delegates united 53-1 in
demanding a strong civil-rights
platform, as the convention closed.

Board Postpones Sanitation Hearing; Cites Local Apathy

Apathy of Campbell and adja-
cent residents has caused post-
ponement of hearings on the pro-
posed \$985,000 Sanitation District
Four hearings, according to min-
utes of the last county Board of
Supervisors meeting.

Spokesmen for the Los Gatos
Chamber of Commerce have urged
acceptance of the long-range plan
but the Board felt that further ex-
pressions should come from resi-
dents concerned in the Campbell
vicinity.

Originally Sanitation District
Four would embrace an area of
25,000 acres, but a portion of this
land lying west of the Santa Clara-
Los Gatos Road has been elimi-
nated at the request of ranchers
who claim they would not need
the service.

Engineering of the district has
been handled by Don Reinhold and
L. Cedric Macabee of Palo Alto.

Blood Bank Unit Is Scheduled July 19

Campbellites will have a chance
to donate blood to the local blood
bank from 11 a.m. to 2 p.m.
July 19.

The traveling unit will be set
up at First Methodist church.

Thirty-five pints of blood are
needed to replace withdrawals for
use of patients from the Campbell
area, Mrs. Merle Gardner, chair-
man, said. Fifteen pints were
given by local donors May 17.

Services of three nurses and
volunteer hostesses and helpers
are also needed. Donors and vol-
unteers may register with Mrs.
Gardner, phone 2080.

Growers to Ballot On Marketing

The State Department of Agri-
culture announced that it is con-
ducting a referendum for prune
growers under the provisions of
the Marketing Program for
Prunes, as amended.

A ballot is being mailed to all
prune growers of record with the
Department, giving them an op-
portunity to vote upon certain
recommendations of the Prune
Program Committee which are
subject to referendum.

The ballot is in three parts: One
dealing with quality control and
trade promotion; another dealing
with surplus control; and a third
part dealing with green droppings.
Growers are requested to vote
on each of the three parts.

Producers voting must sign
their ballots, otherwise their vote
cannot be counted. Also, ballots
(Continued on page 8)

ADA REBEKAHS INSTALL NEIGHBORING LODGE OFFICERS

Pictured in the portrait above are the installing officers of Campbell's own Ada Rebekah Lodge who this year have the honor of installing the officers of all the neighboring lodges of the valley. Bonnie Silberbauer is District Deputy President. Front row, left to right: Blanche Gilpatrick, Jessie Griffith, Catherine Kilgallon, Eva Dahl, Bonnie Silberbauer, Josephine Hocking, Irene Hodges, Helen Wrigglesworth. Second row: Thelma Whitmore, Dora Bernardacci, Margaret Branstetter, Reba Chappell, Lois Millham, Leila Merritt, Neva Kenny. Back row: Bessie Merrill, Etta Eddleman, Virginia Currie, Ruth Livingston, Lottie Rice, Jessie Silberbauer and Lillian Ohlen.

New Campbell Well Produces 800 Gallons Per Minute as New Shaft Is Completed

A new well will soon increase
Campbell's water supply by nearly
800 gallons per minute.

One and a tenth million gallons
of water were pumped by Camp-
bell water company in the 24-hour
period of Tuesday, July 13, and
this record was due to be in-
creased Wednesday, when Camp-
bell felt its hottest day of the sea-
son.

Present equipment and water
sources are working at top ef-
ficiency to keep up with the de-
mand created by domestic and ir-
rigation needs.

The new well began pumping
Monday into irrigation channels
in order to clear the line of clay
and gravel encountered in sinking
its deep shaft.

Some connections remain to be
completed before the new water
supply can be turned into local
faucets.

Arrange Booth of Home Made Cakes

Telephone committee members
from Moreland School PTA are
arranging a big boothful of home
made cakes for Campbell Com-
munity Carnival Saturday.

Assisting the president, Mrs.
George Robertson, are Mrs. E.
Speno, Mrs. H. Hazelton, Mrs. W.
Holtum, Mrs. Rex Fuller, Mrs.
Robert Allinger and Mrs. M. San-
tos.

Mrs. Robertson recently enter-
tained executives of the associa-
tion in her home, Quito road, for
a business meeting and refresh-
ments. A rummage sale, sched-
uled during the session, will be
held August 12-13-14 in IOOF
hall.

Home on Leave

Apprentice Seaman Robert
Knowles, son of Mr. and Mrs. J.
W. Knowles of Campbell, flew
home Monday for a 12-day leave
with his parents.

Robert just completed his boot-
camp training at San Diego. Be-
cause he stood fifth high in his
group in qualifying examinations,
he will return to a six-weeks
training program at the San Di-
ego base. He is a graduate of
Campbell Union High School.

Lower Fire Rate Is in Prospect

Lower taxes in Campbell Fire
District are in prospect for the
fiscal year that began July 1.

Contrasting to last year's 32 1/2-
cent rate, the levy is expected to
be around 20 cents—the exact fig-
ure will be set by the Board of
Supervisors when Campbell dis-
trict assessment totals are com-
pleted.

Remodeling of the fire house
here began Monday when founda-
tions were poured for a 13-foot
fire wall along the east side of the
interior. It will be constructed of
pumice blocks, partly filled with
concrete.

The district recently purchased
450 additional feet of hose.

Some 4000 pictures of Japan
form a collection brought home
July 4 by Charles F. Livingston
Jr., son of Mr. and Mrs. C. F. Liv-
ingston of 348 Harrison avenue.

What's New in Books?

Some 2700 Local Readers a Month Keep Campbell Librarian on Her Literary Toes

"The people of Campbell show
very good taste in what they
read," said Mrs. Florine Peake,
librarian of the local branch of
the County Free Library, this
week. "But strangely enough,
most of the patronage of our in-
stitution comes from the newer
residents of the area."

The librarian attributes this
fact to a lack of appreciation of

Team To Preside at Ada Lodge Ritual To Complete Series

Eventful July days for Mrs.
Bonnie Silberbauer, deputy pres-
ident of district 3, Rebekah lodges,
and her staff include the installa-
tion of officers for nine lodges in
as many near-by towns.

Mrs. Silberbauer and her staff
are all members of Ada Rebekah's
of Campbell. She is assisted by
Mrs. Dahl, marshal.

Wednesday evening they offi-
ciated at ceremonies for San Jose
lodge 87 and Monday evening the
deputy president will preside at in-
stallation of Saratoga Rebekah
lodge.

Installation of new Ada lodge
officers will complete the series
Tuesday evening, July 20.

Beginning with installation at
Sunnyvale lodge on July 1, the
local staff has welcomed officers
of Clara lodge, Santa Clara, July
5; Philotesian lodge, Cupertino,
July 7; Hesperian lodge, Los
Gatos, July 8; Josephine lodge,
July 12 and Stella lodge, July 13,
both of San Jose.

Tennis Matches in First Round

First round of the men's ten-
nis tournament sponsored by
Campbell Tennis club will be com-
pleted by July 25, Bob Magnuson
has announced.

Entries for a women's tourney
will be accepted by Magnuson, who
can be reached at Phone 2026.

Rules are posted at the high
school tennis courts, where the
matches are played.

Anticipate Peaches Will Require 1200 Workers in Local Canneries

Lagging apricot production in Campbell orchards and canneries
took an upturn today as Wednesday's high temperatures brought out
the gold and rose of the district's crop.

This year the season on 'cots began more than two weeks later
than in 1947 when full production started June 26. Beginning slowly
ten days ago, local cot canning
has so far been limited to shipped-
in fruit, packed whole.

Carnival Expected To Attract Young and Old

Campbell Co-ordinating Coun-
cil's fun festival, set for Saturday
evening on the Grammar School
grounds has been planned as an
evening of light entertainment
and fun for both young and old.

Some 35 Campbell organizations
are sponsoring booths of one kind
or another. Games of skill and
chance, with the odds more than
likely in favor of the "operators,"
will dot the grounds of the car-
nival site. Many prizes, donated or
sold at cost by Campbell mer-
chants will be offered to lucky
winners of a contest.

"If you go home minus a dollar
or two, don't feel badly," says Di-
rector Art Tindall. "It's all for a
good cause." All the money taken
in will be used for expenses of the
summer recreational program for
children. Sponsoring the Carni-
val, and instrumental in seeing to
it that children who might oth-
erwise be idle, or without care dur-
ing the summer vacation is the
Campbell Co-ordinating Council.
The Campbell Grammar School
board of trustees have generously
allowed one of the school busses
to transport children to San Jose
for swimming lessons.

One of the features of the eve-
ning will be a puppet show put on
by members of the Footlighters,
a talented theatrical group. Grounds
will be open from six p.m. until
midnight.

Adventists Will Dedicate New Church July 17

Seventh-day Adventist Church,
Rincon avenue, announces the de-
dication service of their new house
of worship. The long looked for
for this dedication service will
be Sabbath, July 17, at 3 p.m.

The dedication sermon will be
delivered by Pastor R. C. Baker,
president of the Central California
Conference of Seventh-day Ad-
ventists, whose headquarters are
in San Jose.

The service will include special-
ly prepared musical numbers, both
instrumental and vocal.

The church is located on the
corner of Fourth and Rincon
streets, Campbell.

A cordial invitation to attend
this service is extended to all by
C. Bufano, newly appointed pastor.

Prune Meeting In Washington

Word was received from Wash-
ington that the week of July 26
will be set aside for dried fruit
industry meetings with represen-
tatives of the United States De-
partment of Agriculture.

F. P. Abshire, chairman of the
Prune Program Committee, stated
that an industry committee will
proceed to Washington to discuss
at that time the removal of sur-
plus dried prunes of the 1948 crop
through government purchases.

He further announced that the
grower referendum on the Sea-
sonal Marketing Program for
Dried Prunes will be mailed to
growers on July 12, and that grow-
ers must mail ballots by mid-night
July 19. The approval of the Sea-
sonal Marketing Program will
place the Committee in a stronger
position in presenting its case, and
will comply with the requirement

Fall and Winter Pear Grades Announced by State

The State Department of Agri-
culture announced the grades of
canning Fall and Winter pears
which may be delivered for can-
ning purposes during the 1948
season.

The minimum grades, recom-
mended by the Canning Fall and
Winter Pear Advisory Board and
approved for the 1948 season by
the Director of Agriculture, are
"Canning Fall and Winter Pears"
and "Strained Foods Grade" pears
as established by the Marketing
Order for Canning Fall and Win-
ter Pears (1946-1951), as amend-
ed. The 1948 season's grades are
the same as were in effect last
season.

The marketing order which be-
came effective on August 3, 1946,
and continues in effect until July
14, 1951, provides for the inspec-
tion and certification of Fall and
Winter pears prior to delivery to
the canners.

The department also announced
the director's approval of operat-
ing rules and regulations for the
1948 season as recommended by
the advisory board. The operating
rules and regulations dealing with
inspection and certification pro-
cedures become effective July 21.
The Bureau of Shipping Point In-
spection will again handle the
grading of Fall and Winter pears
for canning in conjunction with
the inspection of Bartlett pears
under the marketing program for
canning Bartlett pears, as amend-
ed.

Copies of the authorized grades
and Operating Rules and Regula-
tions for the 1948 season are to be
mailed by the Bureau of Markets
to all growers and canners of the
pears of record with the depart-
ment.

The principal counties in which
Fall and Winter pears are grown
are: Santa Clara, San Benito,
Santa Cruz, Monterey, Sacramen-
to, El Dorado, and Placer.

Kiwanis, Rotary To Tangle Again

Campbell Kiwanis Club's daunt-
less veterans of the diamond, pos-
sibly minus the help of the old
reliable veteran, Budd Levenberg,
has again challenged the tough
Rotary club softball team to strug-
gle with them at the Grammar
School grounds.

Cel Gerevas, manager of the Ro-
tary outfit has switched his line-
up to add more punch in the vul-
nerable spots and shrugs off the
coming Friday night game as a
"soft touch." Time: 6.45. Place:
Grammar School Grounds. Time:
Friday, July 16.

Return from Tour of Eastern States With Antiques for Collection

Returned from a five-week vacation trip through the East, Mr. and Mrs. John P. Smith are back in their new home, San Tomas road, this week.

While they were away, the Smiths drove 8,942 miles through

25 states and visited Yellowstone, The Badlands, Mt. Rushmore in South Dakota, Niagra Falls, Boulder Dam and Grand Canyon. They were sightseers at a cigarette factory on the Atlantic coast, a lithograph post card shop and at Willow Run in Michigan.

Johnnie, an ex-signal corps man, and Dorothy, an ex-Wave, stayed with former Navy and Army friends in Illinois, Indiana, Pennsylvania, Virginia, North Carolina and Tennessee.

In Rochester, N. Y., they were guests of Mrs. Smith's sister, Therese Robillard Kirby, formerly of Campbell, and in Boston they visited her father.

The young couple, whose home is furnished in an early American motif, pulled a trailer and picked up several old pieces of furniture which they will restore themselves. Among their "treasures" are two cradles, two dry-sinks, an old reel and spinning wheel and a hand blown rolling pin they discovered while in Canada. On their way East a blacksmith in Wyoming gave them an old wagon wheel (they sell here for \$6 each) which they hauled all the way East and back along famous Route 66. It now forms a part of their back yard fence.

The hall was decorated in pastel colors and wagon wheels; the themesong sung to the tune of Wagon Wheels by Gale Plymale and Lelen Root. Edith Anderson, Bertina Hindle, Sharon W. Parker, Ella Witaker, Blanch Gilpatrick and Mary Amstutz rolled large covered wheels in pastel colors and flowers, while Mrs. Livingston was escorted to her station. Great Pocahontas of the State of California, Hazel Sherman, was installing officer.

Veda Folden was welcomed into the past pocahontas group by Mrs. Parker, Mrs. Hindle, Mrs. Hodges and Mrs. Anderson.

Past Pocahontas Deputy Inez Means conducted the ceremony.

Edith Anderson had charge of the escort team and Blanche Gilpatrick the decorations and refreshments.

Edith Ford was welcomed back to the Council after being in Los Angeles for almost a year.

An early meeting is called for July 23 at 7:30 p.m. at which time the last card party sponsored by the Past Pocahontas will be held, playing to start at 8:30 p.m. in the I.O.O.F. hall.

Mr. and Mrs. V. F. Fellman, Sunnyside avenue, are the parents of a baby daughter, born July 7.

Jeannine Riddle Will Be Bride at Saturday Rites

Campbell Methodist church will be the scene of a wedding at 2 Saturday afternoon when Clarence A. Williams, son of Carrel E. Williams of Campbell, claims Miss Jeannine Riddle as his bride.

The Rev. Lawrence J. Osborne will officiate.

Jeannine is the daughter of Mr. and Mrs. W. Ed Riddle of Eugene, Oregon, and the granddaughter of Mr. and Mrs. R. Lewis Brown of Campbell. She was recently graduated by Eugene High School and is now employed by the Anglo-California Bank of San Jose.

The bridegroom-elect is employed by the Rosecrucian Press in San Jose. His parents are Mrs. Kathleen Furth of Oregon City, Oregon, and W. Williams, of The Campbell Press staff.

For her wedding, the bride-to-be plans to wear a gray afternoon dress with white hat and gloves, red alligator shoes and purse.

Mrs. Edith Van Rossem, organist, will play the wedding marches and Mrs. Arah Hoyt-Graham of San Jose, great aunt of the bridegroom-elect, will sing "Because" and "O, Promise Me."

The young couple will be at home in San Jose after a honeymoon at Carmel-by-the-Sea.

BIRTHDAY

Birthday cake and ice cream, wound up a festive party given July 10 by Mrs. Reba Chappel of Harrison avenue in honor of Jacalyn Chappel's first birthday. Guests were Sherry Lou Humphrey, Ronald Sekaves and their mothers, Mrs. Kathryn Mathis, Mrs. Nelda Sphar and Jacalyn's two grandmothers.

NETOPS TO SPONSOR BOOTH

Netops Degree of Pocahontas will sponsor a booth at the Carnival July 17 to be held at the Campbell Grammar school.

Chase-Spradling Rites Solemnized in Carmels' Picturesque Wayfarer Church

Honeymooning in the Pacific Northwest are Mr. and Mrs. Alfred Foote Chase, who were married last Saturday in Carmel.

Before her marriage Mrs. Chase was Miss Rachel Spradling, well known in this community. Setting for the 4 o'clock ceremony was the beautiful Church of the Wayfarer, which was decorated with white gladiolus and agapanthus. Dr. K. Gillmore Gray was the officiating clergyman.

For her nuptials the bride, who was given in marriage by her brother-in-law, Carl Field, wore a gold suit with accessories in the mocha shade, and a white blouse. She carried a corsage of white baby orchids. Mrs. Carl Field, who attended her sister as bride's matron, wore a blue suit with a blue and orchid hat, and carried a pastel French bouquet. L. R. Spradling, brother of the bride, was best man, and the ushers were Richard Field, nephew of the bride and John McMillan, nephew of the groom. Following the ceremony a reception was held at Hotel La Ribera in Carmel.

The bride is the daughter of the late Mr. and Mrs. L. R. Spradling. She is a graduate of San Jose State College and Fashion Art School of San Francisco. For the past seven years she has been in business in Campbell, where she has taken part in community affairs, and has made her home with the Carl Fields. The groom, son of

Mrs. John L. Chase and the late Mrs. Chase, is a graduate of University of California, and is in business in Southern California. His home is in Alhambra, where the newly-wedded couple will make their home after returning from their honeymoon about August 1.

Footlighters Preview Carnival Puppet Show

Footlighters previewed a puppet show the club will stage Saturday evening at the Youth Carnival on the Grammar School grounds at a recent meeting.

Mrs. Leila Merritt is supervising the puppet production. Barbara Root, who has returned from a teaching post in the Hawaiian Islands, and Mr. and Mrs. A. Mac Ross were welcomed back to the club.

Seabright has been chosen for a picnic spot for August 1. Refreshments were served by Mr. and Mrs. Dan Gould.

Mrs. Louise Tordt and her daughter Sheila left Tuesday for Portland where they will visit Mr. and Mrs. Martin G. Allen, former owners of The Campbell Press.

Returning from a week at Camp Fire Girls Camp on Tuesday were Patty Powell and Judy Snyder of Ocoasin group and Patricia Means of Odakonya.

Leaving for their camping period on the same day were Roberta Le Maigre, Sandra Shelton, Nelma Kirk, Karen Olson and Pauline Sprague of Wiggata group and Patricia Baxter and Mary Lee Layman of Firefly Bluebird group.

Mary made the down payment with her own savings account

"When Mary was twelve, she announced firmly that she intended to 'buy' a piano. In fact, she started saving for it. We encouraged her by opening a savings account in her name. Just this year she realized her dream—made her first piano payment. We're proud of Mary because she taught herself the value of thrift. That lesson will help her all her life."

Sound loans for homes. Borrowing wisely often is the keystone of home ownership. This Bank has helped thousands; our experience can save you time and worry, whether you build or buy your home.

Bankloan buying is simple. Have the home equipment you want for more comfortable living, yet keep your savings intact. Buy through an easily arranged American Trust Company Bankloan. Pay as you earn.

All "Tanked" Up

BELLE FOURCHE, S. DAK.—This 25-ton tank, 34 feet high and 28 feet in diameter, was recently transported 20 miles from here to a point in Wyoming on a 50-ton Fruehauf Carryall trailer with 16 tires. Kissick Transportation Company, who handled the move, had to build a two-mile temporary road across the Belle Fourche river.

Reminds Youthful Workers To Get Security Cards

A worker's eligibility for insurance benefits under the Social Security Act is based on his or her record of wages earned in employment covered by the law, John J. Cassidy, manager of the San Jose field office, stated.

When a worker takes a job in industry, the first thing he must do is to obtain a Social Security account number card. This means he is opening an account with the government to which will be credited all wages he earns during his working life. To make certain that he receives credit for all earnings, the worker should be careful to show his card to his employer. The employer will copy on to his pay-roll records the Social Security number and the exact spelling of the worker's name as it appears on his account number card.

According to Mr. Cassidy, wages earned during holidays, vacation periods, or any part-time employment, are credited to a worker's account and can be counted towards the time that a wage earner must work as required by law.

The young worker has certain advantages under the program because of his age. In some instances he need only work a year and a half to entitle his survivors to benefit payments.

Inquiry at the nearest Social Security Administration field office should be made as soon as possible by survivors of any wage earner who has worked in employment covered by the Social Security Act.

W.S.C.S. SALE

The W.S.C.S. of the M.E. church will conduct a rummage sale on August 5-6-7 at the IOOF hall with Mrs. Clara Baldwin and Mrs. Rose Hanger in charge. Any donations may be left with Mrs. Baldwin, 41 N. Central.

The earliest record of a nursery in California was that of A. Smith, near Sacramento, in 1848.

Even if you're eloping...

Or having a small private wedding, that's all the more reason why you will want to tell the happy news that it's "Miss" no more, but "Mrs." now.

The ideal way to tell your friends your NEW NAME and all the details is through sending Marriage Announcements of quality.

Your friends appreciate hearing directly from you.

Come in and see our large variety of smartly modern Wedding Announcements and Invitations... they have that certain touch that spells refinement and good taste.

The Campbell Press

Work Starts on New P. G. & E. Plant

Work started this week on the seventh new power plant in Pacific Gas and Electric Company's \$400,000,000 postwar expansion program when a company road building crew moved into the Yuba River area 35 miles northeast of Marysville.

The company announced that the crew will build a new access road to the 48-year-old Colgate powerhouse which is to be replaced by a modern plant of nearly twice the generating capacity. The new powerhouse, with a capacity of 40,000 horsepower compared with 20,800 horsepower in the existing plant, is scheduled to go into operation next summer.

Meanwhile, the company announced, its new 133,000-horsepower Electra Powerhouse on the Mokelumne River is nearing completion and is expected to be placed in service in the next two or three weeks. Electra will be the second new generating plant P. G. and E. has built and placed in operation since the end of the war.

The first new plant completed was Kern Steam Plant, near Bakersfield, which went on the line last May with 101,000 horsepower. A second Kern unit of 134,000 horsepower is scheduled to be completed in the spring of 1950.

New construction on the P. G. and E. system is proceeding at a rate of more than \$10,000,000 a month, the company announced. Nearly two million new horsepower is being added to the company's generating capacity, a third of that amount to be completed in the next seven months.

Crews at work today on the new power plants, and on new substations and transmission lines throughout Northern and Central California, include more than 6,000 men, the company announced.

Other new P. G. and E. generating facilities under construction, their locations, horsepower ratings and completion dates, include: Station "P," Hunters Point, San Francisco, 360,000 h.p., this winter; West Point Powerhouse, Mokelumne River, 21,000 h.p., this winter; Cresta Powerhouse, North Fork of Feather River, 101,000 h.p., winter of 1949, and Rock Creek Powerhouse, North Fork of Feather, 169,000 h.p., summer of 1950.

Catcher, Fry; pitcher, Yates; first base, Fossum; second base, Troyer; third base, Polston; shortstop, W. Yates (captain); left field, Cadill; center field, Chapman; right field, Archer and Tinsley; buck short, J. Yates.

The Cambrian nine was: Catcher, Woodworth; pitcher, H. Roberts (captain); first base, Mitchell; second base, Lampo; third base, Lührig; short stop, Dehoney; left field, D'Anna; center field, Gibbs and Fossum; right field, W. Roberts; buck short, Conley and Shannon.

The next game in the Recreational League is for the Campbell nine when they clash with the baseball team from the Willow Glen School next Wednesday, July 14 at the San Jose school's own diamond.

Dr. and Mrs. Norman E. Osborne, of Hagerstown, Maryland, visited in Campbell last week. Dr. Osborne is the son of Mr. and Mrs. T. E. Osborne of Esther avenue, and a brother of Rev. Lawrence J. Osborne, of the Campbell Methodist Church.

Dad Lee's Thoughts

ON HIS 90th BIRTHDAY

By JOHN R. LYNDEN

Full ninety years upon this earth,

A longer time than most men get;

I surely had my share of mirth, Because of many friends I met.

The years that yet before me lie, I look with pleasure to each one, I'll do my part and ever try, To cheer mankind his journey on.

July 14, 1948.

Bicycle Rodeo Proves Success

With a record crowd of over 100 children, the Campbell District first "Bike Rodeo" of the summer gave thrills and color to those present. The "Rodeo" was held at the Campbell Grammar school grounds with the four Recreation Centers of Moorpark, Cambrian, San Tomas and Campbell having entries. The most popular event proved to be the trick riding and some of the riders really made their bikes go through the paces. Clifford Smith and Wayne Pierce were selected as the grand champions of the rodeo because of their ability at trick riding. The rest of the awards are as follows:

Best decorated bike: Warren Roberts, Julius D'Anna.

Best decorated in the Junior division: Prissella D'Anna, Freddie Munford.

Winners in the pony express race: Junior division—Buck, Holt; senior division—H. Roberts, Pierce.

Winners in the boy's races: Junior division—Buck, Duffa; senior division—Gardeel, H. Roberts.

Winners in the trick riding contest: Junior division—Wilson, D'Anna; senior division—Smith and Pierce; grand champion—Smith and Pierce.

After the bike rodeo the group joined together in community singing and games.

Prizes were donated by the Campbell Theater and the Cambrian Hardware.

Win Over Cambrian

In a hard fought battle between the San Tomas Recreation Center and the Cambrian Recreation Center the nine from San Tomas school proved the winners by a margin of 21 to 11. The game was an exciting one as hard-hitting and stealing bases was the rule instead of the exception. The lineup for the winning San Tomas baseball team was as follows:

Homemaking Today

By Claire Raymond
P. G. and E. Home Economist, San Jose

Evaporated milk is one of the finest foods to help you stretch your food dollar. It's convenient, too, because you don't have to worry about spoilage.

Many recipes are just as good with evaporated milk as with fresh milk. Here are some suggestions for using it:

As sour milk—Add 1 teaspoon vinegar or lemon juice to ½ cup evaporated milk diluted with ½ cup water to make 1 cup sour milk.

As sour cream—Add 1 tablespoon vinegar or lemon juice to 1 cup evaporated milk.

As whipped cream—Chill evaporated milk, undiluted, by placing it in freezing tray, leaving it until ice crystals form along the edges. At the same time, chill bowl and beater, then whip the milk until stiff.

CHOCOLATE RAISIN BREAD PUDDING

2 cups dry bread cubes (crusts removed)
1 tall can evaporated milk (1½ cups)
1½ cups water
2 squares chocolate, melted
2 eggs, beaten
½ teaspoon salt
½ cup sugar
2 teaspoons vanilla
½ cup raisins

Soak the bread in the milk and water until it is soft, then mash very fine. Heat the mixture until nearly boiling, stirring frequently to prevent sticking. Add melted chocolate and beat to mix well. Beat the eggs until light and add sugar, salt and

vanilla. When well mixed, stir the egg mixture into the bread and milk; add raisins, then pour into a greased 1½-quart glass baking dish. Set in a pan of hot water and bake for 60 to 75 minutes in oven preheated to 350° F., or until done.

MAPLE NUT ICE CREAM

1 cup evaporated milk, chilled
2 cups fresh milk, OR 1 cup evaporated milk and 1 cup water
2 tablespoons flour
2 tablespoons cold water
¾ cup sugar
1 egg OR 2 egg yolks, beaten
¼ teaspoon salt
1 teaspoon vanilla
¾ teaspoon maple flavoring
½ cup finely chopped walnuts or pecans

Put evaporated milk in freezing compartment of refrigerator to chill. Scald the milk in top of double boiler. Mix the flour and cold water to a smooth paste, then slowly add the scalded milk, continuing to stir. Return to double boiler and cook over hot water for about 15 minutes. Beat egg, add sugar and salt. Add some of the hot milk to egg-sugar mixture, then stir into hot milk. Cook about 2 minutes. Strain the custard through a sieve, if necessary, then cool. Add flavorings. Beat the icy evaporated milk in a chilled bowl until stiff and fold into the maple custard. Pour into cold freezing trays. When about two-thirds frozen, stir in the chopped nuts. Freeze until firm with temperature control at coldest setting, then turn control to normal and allow to ripen. Makes about 1 quart.

K-1875 Outstanding to Stop Citrus Red Mite

K-1875, a new chemical, shows outstanding possibilities among hundreds of insecticides tested to control citrus red mite, announces Dr. Lee R. Jeppson, assistant entomologist in the University of California Citrus Experiment Station.

This mixture is recommended: For the usual sprays, 1½ to 2 pounds of wettable powder per 100 gallons of spray, and for concentrate sprays, 10 pounds of a 40 per cent wettable powder per 100 gallons of spray. Both are applied at about 100 gallons per acre. These recommendations are based on field tests on 1,400 acres of citrus trees in 150 groves.

K-1875, also called bis (p-chlorophenoxy) methane, is very toxic to citrus red mite in all stages from egg to adult and is almost harmless to beneficial insects. Its poisonous effect lasts for several weeks and it remains toxic when mixed with kerosene and other solvents. In two years of tests, the trees and fruit have not been injured. Results were as good as the usual oil sprays. It can be applied safely on food crops.

Results have been better when

Savory Slices

By BETTY BARCLAY

A main-course dish that may be prepared the day before, to be sliced, heated and served in a jiffy—that's something to please the most fastidious hostess.

Here is such a dish! Only the finishing touches are needed when luncheon or supper guests are being entertained. It's delicious—and provides food values galore to insure those daily dietary requirements:

Fried Wheat-Meal Chicken Slices
¾ cup finely diced celery
¾ cup finely chopped onions
2 tablespoons finely diced green pepper
1 teaspoon salt
1½ cups chicken broth
1½ cups boiling water
1 cup wheat-meal
½ to 1 cup diced cooked chicken or giblets

Add vegetables, salt, and chicken broth to boiling water and cook until vegetables are tender. Drain; measure liquid and add water to make 3 cups. Bring liquid to a boil, add cereal gradually, and boil gently 3 minutes, stirring constantly. Add cooked vegetables and chicken. Turn into greased 9 x 4 x 3-inch pan. When cold, slice and sauté in small amount of fat until lightly browned. Serve with chicken gravy; or serve with onion, celery, or mushroom sauce. Makes 6 servings.

Note: Three cups boiling water and 3 bouillon cubes (chicken flavor) may be substituted for 1½ cups each chicken broth and boiling water.

Local Hardware Notes Up Trend in Canning Equipment Sales

The soaring prices of food stuffs, in both staple and specialty classifications has had a marked tendency in getting today's homemaker back into her apron. According to sales of home canning equipment, as measured by the Campbell Hardware Company, milady in charge of the culinary department of the average home is answering the high cost of food by canning, preserving and "putting up" all available seasonable fruits and vegetables in her own home kitchen.

Cel Gerevas and Norman Corvelho, genial owners of the local store report that their wholesale suppliers are coming through with all manner of canning equipment

U. C. Man Will Head American Delegation

Dr. G. H. Hart, head of the animal husbandry division of the College of Agriculture on the Davis campus of the University of California, has been named chairman of the United States Committee for the Fourteenth International Veterinary Congress, to be held in London, August 9 to 14, 1949. The news of the appointment came from the American Veterinary Medical Association, Chicago.

As chairman of this committee, Dr. Hart will have charge of organizing American participation in the Congress, and arranging for the transportation and accommodation of the 500 United States veterinarians who are expected to attend.

Born in Philadelphia, Dr. Hart earned his degree of Doctor of Veterinary Medicine from the University of Pennsylvania; later he took a degree of M.D. from George Washington University in Washington, D.C. After several years with the United States Department of Agriculture, both in Washington and in southern California, he came to the University of California, in the division of veterinary science. In 1926 he was made head of the animal husbandry division, which position he has held since.

The California Walnut Growers Association was formed in 1912.

The Navy offers steady pay.

NEW U. C. MAN TO STUDY AVOCADOS

The effect of soil moisture on the tree health of avocados will be the first problem undertaken for solution by Dr. Sterling Richards, who has joined the staff of the College of Agriculture Citrus Experiment Station. Dr. Richards comes to the University of California from Rutgers University, and will be in the division of soils and irrigation on the Riverside campus.

Graduated from Utah State College, Dr. Richards received his Ph.D. from Cornell University in 1935.

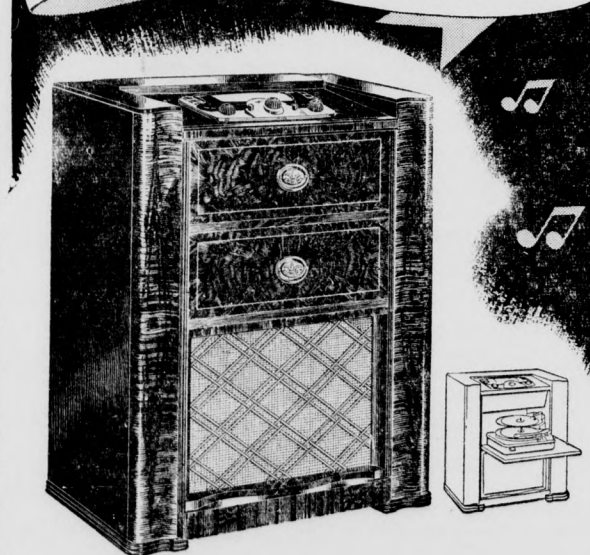

Newest Kitchen Aid

This homemaker in the shining kitchen above is happy over the newest Kitchen Aid, a cream wax which combines a double cleaning action with glossy finishing. Johnson's research experts developed cream wax especially for furniture, woodwork, and enamel finishes. It removes spots easily and provides a tough wax film to resist future soiling. Cream wax is good for cabinets and cupboards, too. Unlike sticky, oily polishes, it will not attract dust.

Boy Scouts' Health Study Starts Friday

A Training Course in Public Health will be given at the San Jose City Health department for all Boy Scouts interested in this subject, starting next Friday, July 16 at 10 a.m. A wide variety of interesting subjects will be studied, including communicable diseases, sanitation, water supply, dairies and milk supply, sewage and garbage disposal plus other subjects pertaining to the Public Health Merit Badge. Field trips will be taken to local dairies and cream-

eries, restaurants, water supply and other public utilities.

This course, open to all Boy Scouts, is being given by the Health and Safety Committee of the Santa Clara County Council, Boy Scouts of America, with the full cooperation of the Health Department of the City of San Jose. All Scouts interested in this Merit Badge which is required for Eagle rank, are urged to be at the first meeting on the 16th in the old

U.S.O. Building, 285 So. Market East.

The facility for this course includes Miss Margaret Nelson, Mrs. Josephine Wagner, Miss Mary Louise Atkinson, Mr. James Hartley, Mr. Elvin Hodgett, Mr. James Hopson, Mrs. Alston Aggerty, Mr. Levittie Mendell, Dr. Dwight M. Bissell of the City Health Department and Frank Olsen, Chester D. Bartlett, William Wadsworth and Kenneth Robison of the Boy Scout Office.

Brands Furniture and Appliance store, on South Winchester road has just received a large shipment of the new Frigidaire Automatic Laundry equipment. The line consists of a newly designed ironer and dryer in addition to the washing machine.

Jim and Mae Brand, owners of the store, are highly enthusiastic over the new Frigidaire appliances which consist of water heaters,

ranges, deep freeze boxes and refrigerators in addition to the new automatic washer equipment.

NURSING AUTHORITY APPOINTED AT L. A.

One of America's outstanding educators in the field of nursing, Professor Lulu K. Wolf, 45, of Vanderbilt University, has been appointed professor of nursing at

The Campbell Press, Campbell, Calif., Thursday, July 15, 1948—5

the University of California at Los Angeles and chairman of the department, it is announced by Provost Clarence A. Dykstra.

Miss Wolf will take up her new duties in September. She will replace Miss Margaret Robertson who has been acting chairman of the department for the past year.

Miss Wolf received her education at Teacher's College, Columbia University, the University of London and Johns Hopkins University. She has been teaching since 1925 and has been a member of the Vanderbilt faculty since 1938.

Winner of several scholarships and fellowships, Miss Wolf in 1937 helped to co-author the book "The Principles of Nursing Care" and in 1947 wrote "Nursing," a volume which has received high praise.

Via Vet says

This Month's STAR RECIPE

By BETTY BARCLAY

"Star" Recipes are hard to locate during these days of shortages and substitutions. But here is one for a meat loaf that surely deserves to be starred. The bread-saving program makes bread crumbs a scarce item, but the corn flakes called for here, prove to be a wonderful substitute—with top-notch nourishment.

Family Meat Loaf

4 cups corn flakes
2 pounds ground meat*
1 egg
2 teaspoons salt
1 tablespoon minced onion
1/2 teaspoon sage
1/4 cup chopped celery leaves
3/4 cup chopped celery
1 tablespoon chopped parsley
1/2 teaspoon pepper
1/4 cup ketchup
1 cup milk or stock

Crush corn flakes slightly. Combine remaining ingredients in order given; mix well. Add corn flakes. Pack into greased 9 x 5 x 3-inch loaf pan. Bake in moderate oven (375° F.) 1 hour and 15 minutes. Makes 8 to 10 servings.

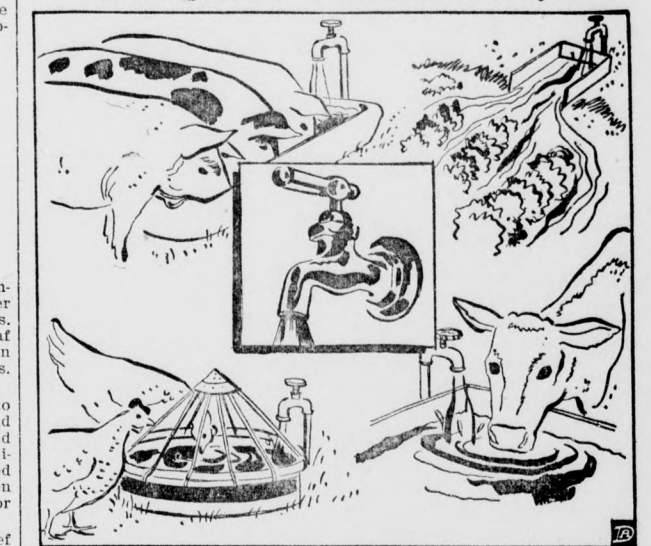

Serve hot, plain or with tomato or horse-radish sauce. Or surround with cooked vegetables, as buttered small carrots and onions; cauliflower and green beans; or cubed yellow turnip and sautéed green peppers. Or serve cold, sliced, or in sandwiches.

*For meat, use 1 1/2 pounds beef and 1/2 pound lean pork; or 1 pound each veal and lean pork; or 4 cups ground cooked meat. If all cooked meat is used, decrease baking time to 1 hour.

Small Meat Loaf. Prepare half this recipe, using 1 small egg or 1 1/2 tablespoons slightly beaten egg. Bake in 8 x 4 x 3-inch loaf pan 1 hour. Makes 4 to 6 servings.

Small Meat Loaf (Using Cooked Meat). Prepare half this recipe, using 1 cup ground cooked veal, 1 cup ground cooked pork, and 1 small egg or 1 1/2 tablespoons slightly beaten egg. Bake in 8 x 4 x 3-inch loaf pan 50 minutes. Makes 4 to 6 servings.

Running Water Boosts Farm Output

Most important single thing that electricity can bring to the farm is running water under pressure supplied by an electric water system, according to the National Association of Domestic and Farm Pump Manufacturers.

There are innumerable uses for water on the farm. For laundry work alone, the average farm family needs 30,000 gallons of water a year.

Experienced hog feeders claim that fall pigs have made gains at from 15 to 17 per cent lower feeding cost when given all the warmed water they would drink as compared with fall pigs given only cold water. Use of a tank water heater is made possible by an electric water system.

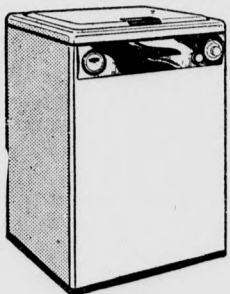

Running water makes it practical and economical to employ supplementary irrigation for protection of garden crops. Egg production increases 8 to 10 per cent where flocks have running water in laying houses and yards. Milk production increases 10 to 20 per cent and 6 to 12 per cent more butter-fat is produced where dairy cattle are supplied with running water.

... And One Good Product Insures Another!

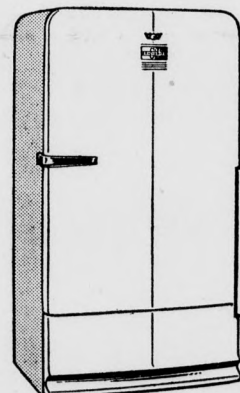

Yes, you know about famous Frigidaire Refrigerators. Always a step ahead in quality, performance and new convenience features, they've set the standards of refrigerator excellence for over a quarter-century. EARLY TRAVEL IN CAMPBELL

(Continued from last week)

"In the fall of the year 1887 Mr. and Mrs. John Berry (parents of depot agent Berry) came to Campbell from Santa Clara and purchased a small parcel of land adjoining Campbell avenue, and Los Gatos creek, on the south side of Campbell avenue, and west of the bridge. In the following spring the unusual and continued heavy rains changed the course of the creek water to the west side bank, causing washouts for a considerable distance along the bank, including the Berry property, in spite of all efforts to steer the current away from the bank. The house and some other small structures being in danger of the flood waters, Charles Berry, with the aid of three other men, drove a hand car into San Jose, where contact was made with a house moving outfit, who got out to Campbell early next morning, and moved the house away from the creek bank onto the county road, where it remained several days on account of weather conditions, and until a new location could be found, during which time all of the ground purchased by John Berry was washed away, except a small piece adjoining the roadway which still remains intact at this time.

"Mr. Benjamin Campbell came upon the scene and solved the Berry problem, by opening a street from Campbell avenue south to the railroad tracks, had lots surveyed on both sides. Mr. Berry purchased the second one from the south end and nearest the depot. The street was named Central avenue. The house was then moved onto the lot together with the other buildings. This lot was the first residence lot sold by Mr. Campbell on his land upon which now stands the town of Campbell.

"In later years when hay and grain fields became fruit orchards, Central avenue became the main thoroughfare from Campbell avenue to the railroad tracks for fresh fruit and other local shipments. Nothing unusual to see teams loaded with fresh fruit lined up from the depot clear back to First street, waiting to unload. Most of these individual local shipments, mainly peaches, were later delivered to the canneries, as their equipment continued to expand.

"But the canneries were also extensive receivers of fresh fruit, for many years from other points, mainly from the San San Joaquin valley. In addition the Ainsley Packing Company were receivers of many hundred cars of pears from points in Oregon prior to Mr. Ainsley's retirement.

"For a number of summers the Southern Pacific ran a passenger train from Sacramento direct to Santa Cruz. This train brought many fruit workers from Sacramento and points enroute, not to mention the free advertising Campbell incidentally got abroad as a thriving community, for its educational and many other advantages as well as a very desirable place to live and grow up with.

"The California Prune and Apricot Growers Association, another industrial asset to the town of Campbell, came early into the picture, providing employment for many Campbell people almost the year round.

"The Campbell gravel pit, purchased by the Southern Pacific Company furnished nearly all the rock used in the construction of the additional or double track from San Francisco to San Jose. When completed the pit was taken over by the Santa Clara Valley Gravel Company, who for a number of years shipped out an average of 10 cars per day.

"During the summer months and for many years, Sunday excursion trains were run from San Francisco to Santa Cruz and mountain resorts, at a dollar fare for the round trip. Many of the canner workers and others took advantage of these excursions for a day's outing, rest and recreation at the beach after their six days fard work in the fruit.

"The initial railroad through Campbell was a narrow gauge line from Oakland to Santa Cruz under the name of the South Pacific Coast Railroad. After some years it was taken over by the Southern Pacific Company at a reported cost of six million dollars. The S. P. then commenced to change it over to the standard gauge, first as far as Campbell, then later to Los Gatos, and finally to Santa Cruz and branches, by laying a third rail which enabled them to haul broad and narrow gauge cars in the same train, until the job was finished, when the N.G. rail was taken up and the N.G. rolling stock was removed.

"The baby chick industry comprising four of the principal hatcheries viz., The Mission Hatchery, owned and operated by George M. Ellison, The E. W. Ohlen Hatchery, The Old Orchard Hatchery, and The Union district hatchery operated by the Downing sisters. The combined shipments of these hatcheries delivered to the express company at the depot, in containers of one hundred chicks each, ran considerably past the million mark per season. Shipments were made to points in and outside the state, including points in Oregon and Washington.

"The late Mr. F. M. Righter who came to Campbell in the early eighties, first taught school in Saratoga, owned and lived on a small orchard of young fruit trees adjoining the railroad right of way a short distance north of Campbell. Mr. Righter made the first shipment of fruit by rail from Campbell.

"With the rapid transformation of hay and grain fields to fruit orchards and vineyards of the many varieties surrounding Campbell on all sides for miles, the town soon came to be widely known as the Orchard City."

In 1882 the County Board of Supervisors defined the first public roads. Among them was "a road commencing at the city limits of San Jose at Santa Clara street and to run where the present road now runs to Santa Cruz through Fernandez ranch, by Jones Mill (Los Gatos) to the county line." Both the Santa Cruz road and Pacheco Pass were toll roads until 1878-79.

An "afterburner" which increases the power of jet engines for short periods of time has been developed by the Navy for one of its jet fighter planes.

How to make a telephone grow

1. If your telephone grew in size as the system serving it grows, it might look like this someday. Since 1940 alone, telephones have increased 75% on the Coast. And the growth continues. Today your telephone is a bigger, more valuable servant than ever. Here's how it got that way.

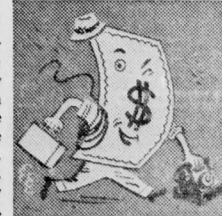

2. Cables you'll probably never see had to be put in. New buildings, the telephones themselves, complex switching frames... an almost unbelievable amount of equipment had to be provided before the system could grow. We must spend millions of dollars to keep it expanding and improving...to meet the needs of the growing West.

3. Who pays for new equipment? Half a million dollars a day needed to expand and improve comes from investors who put their savings into the telephone business. To continue growing and improving, we must sell our services at fair and adequate prices that provide profits for investors that are fair and adequate.

4. When you make a local telephone call the cost averages less than a nickel. For those few pennies you hire a mighty servant...a bigger servant than ever before. There will soon be twice as many telephones on the Coast as there were ten years ago. They continue to go in rapidly. And each one added makes your telephone that much more valuable.

The Pacific Telephone and Telegraph Company

1 East Campbell Avenue,
Campbell, California,
Attorney for said Executor.
July 1-8-15-22, 1948

DICKSON CHAIRMAN BOARD OF REGENTS

Edward A. Dickson, Los Angeles financier, has been elected chairman of The Regents of the University of California, beginning July 1, it has been announced. In the University's 70-year history he is the first man from the southern part of the state to serve as chairman.

The Regents, who govern the affairs of the world's largest university—eight campuses, 40,000 students and more than 5,000 faculty and administrative officers—include 16 appointed Regents and eight members who serve by reason of the official positions they hold.

Dickson was former editor and publisher of the Los Angeles Evening Express, and was one of the founders of the University of California at Los Angeles.

The State Board of Harbor Commissioners for San Francisco was organized in 1863.

When it's trout planting time in the mountains

...P.G. and E. helps stock the streams

Packing in to remote lakes and streams high in the mountains go sure-footed pack horses with loads of trout...thousands of fingerlings "packed" in each specially

cooled can. They're on the last leg of the journey from the Burney Fish Hatchery... one of many fish conservation facilities built in California by P. G. and E.

Man's ingenuity improves on Mother Nature at the Burney Hatchery. Under natural spawning conditions, only 5% of the eggs laid in streams survive. Here 90% are hatched and cared for until they reach stream size, and are ready for planting.

"Planting" the baby fish helps keep California streams well-stocked. Many of these brooks used to be dry during the summer. Now the release of stored water from P. G. and E. reservoirs keeps most of them flowing the year 'round.

for the record
On P. G. and E.'s system more than 100 lakes and reservoirs aid fish conservation.

Since the removal of war time controls, P. G. and E. has spent \$225,000,000 expanding its far-flung system.

The huge building program, now in its third year, is going full speed ahead.

PACIFIC GAS AND ELECTRIC COMPANY

Some 2700 Local

(Continued from page 1)
monthly circulation is approximately 2700 books, an increase of nearly twice over in the past year, Mrs. Peake says. "This is a measure of the tremendous growth of Campbell," she adds.

The Campbell Branch has the distinction of being one of the original establishments incorporated with the County Free Library when it was created on July 1, 1914. Already the community had an active library, founded by the Campbell Country Woman's Club and operated by the Campbell Library Association as a club enterprise. Some of the books of the original collection still are in use. However, new books arrive weekly from the central library in the Hall of Justice building in San Jose.

The Woman's Club still actively supports the library as a regular club activity. It is housed in the Club's building, utilities and janitor service being furnished. This building was erected in 1924.

The County Library has 30 community library branches throughout Santa Clara County, of which the Campbell and Saratoga branches are mentioned with particular pride by Mrs. Singletary. In addition, the County Library operates more than 50 branches in rural schools. The present is a very busy time as the thousands of school books are being sorted, cleaned and repaired. The County Library is affiliated with the State Library at Sacramento, making it possible for almost any book to be secured for use locally within a short time.

While Mrs. Peake has been Campbell's librarian only since last September 1, she has been a resident of Campbell for more than 35 years. She had an active interest in the institution during the days when it was a club enterprise.

"We feel very fortunate in having Mrs. Peake on our staff," Mrs. Singletary said this week. "She is doing excellent work in building up the circulation and service of our Campbell Branch."

And Mrs. Peake thoroughly enjoys the work, particularly that with the young people. "Last year they had me looking up the answers to their general questionnaires for the local schools," she said. "It certainly was a good way for me to get acquainted with the books available here," she laughed. "They sprung the questions on me in the first two weeks I was here."

How is the library financed? Through County taxes. Since the expense of County roads was shifted to gasoline taxes some years ago, the County Library tax levy is the only difference between the "inside" and "outside" County tax rates.

The library service is available here every week-day afternoon from 1 to 5 o'clock and on Monday, Wednesday and Friday evenings from 7 to 9 o'clock. Borrowers' privileges are open to all Campbell residents, the only requirement being the signing of the library card by some property owner. Mrs. Peake offers a gracious welcome and courteous help in book selections. She is particularly anxious to build up wider use of the library, especially during the evening hours.

Growers to Ballot

(Continued from page 1)
must be postmarked not later than July 19 to be counted.

The Committee proposes that the industry undertake to improve consumer satisfaction by preventing the marketing of off-quality prunes. Off-quality control on producer deliveries is to be coordinated with comparable quality requirements on processed prunes. The Committee also recommends an increase in the rate of assessment for the collection of funds to be used to promote the distribution and sale of California prunes.

The Committee has recommended further that tonnage in excess of normal market requirements be handled under the control and supervision of the Program Committee. The purpose of such provisions would be to establish trade confidence and stabilize marketing conditions by assuring the trade that excess supplies will not be permitted to overload the market.

The Committee said it would also make more effective any assistance received by the industry from the federal government. Federal officials have indicated that requests on the part of the industry to the federal government for assistance through purchases for domestic and foreign relief would be looked upon with greater favor if the industry adopted a program of self-assistance.

Furthermore, any assistance granted by the government could be handled more advantageously by negotiations with the Program Committee rather than through open market transactions.

The third part of the referendum relates to voluntary green dropping to meet set-aside requirements that may be estab-

who knows, you may be inspired to take up weaving or quilting or antique restoration yourself. Exhibitors from last year will be back in full force. First-time

exhibits can be arranged for by phoning Campbell 3441 or 2189. In addition, demonstrations of archery, tackle making, painting, magic and model making are programmed for the afternoon and evening.

LIVESTOCK CONFERENCE

M. S. Beckely and Frank Hopkins attended the Livestock Judges' Conference at California Polytechnic College, San Luis Obispo, July 6-9.

Midnight Spook Thriller Big Stage Hit at Campbell Theater

Better Go to Bed Early and Get Rested Up for This Chiller-Thriller!

Go to bed early every night and get your nerves in shape, advises the local theater manager in order to be on hand in good shape for the stage and screen performance that is guaranteed to thrill you, chill you and have you screaming for mercy.

"Chasm of Spasms" with Dr. Ogre Banshee and his eerie company of spooks will come out of the stygian blackness of the night with more unhallowed machinations than the "Old Ned" himself. Astral bodies are scheduled to float through the audience; a head, unsupported by either earthly or spiritual body, may perch upon your shoulder. Sinister be-

ings may spirit away your wife! Icy, creeping fingers are likely to send your neighbor sprawling in the aisle. When Verga, the ghost's sweetheart, takes her bath on the stage at mid-night, you will find your spine dissolving into nothingness.

This super thriller show may be seen for one mid-night performance only. It comes directly from London, where Dr. Banshee made a name for himself (albeit a fiendish one) entertaining the boys during the war.

Appearing with the unholy doctor and his assembly of spooks is a thrilling, horror-laden screen chiller—a new horror movie.
